

From Millions of yards of dirt, to miles of pipe, to installing bridges across a creek **Great Lakes Fusion** can get it done!

Great Lakes Fusion has GPS controlled dozers & excavators to make any project efficient and cost effective!

989-288-2656

989-288-2656

Great Lakes Fusion is experienced in MSE wall and Slope Stabilization Projects.

With many years of experience, Great Lakes Fusion has the knowledge and equipment to complete any excavation project.

Great Lakes Fusion's Sealed End Caps are used to seal off side slope risers, but still have easy access for pump maintenance.
